## BREUIL - CERVINIA

Open daily from 25 October 2025 to 3 May 2026

Breuil-Cervinia (2,050 m), modern tourist resort at the foot of the Matterhorn, offering an impressive ski area. 150 km of slopes connected with Valtournenche, for a total of 24 ski lifts and an international connection with Zermatt, via the Cime Bianche Laghi - Plateau Rosà cable car and the Bontadini chairlift, for a total of 360 km of slopes. From Plateau Rosà, you can descend towards Zermatt or take the Ventina slope: 11 km descent from 3,480 m at the start to 2,050 m in Cervinia. The Cime Bianche Laghi area (where the cable car to Plateau Rosà starts) offers other beautiful descents served by the Goillet chairlift, which is the gateway to the Valtournenche ski area. For relaxed skiing at Plan Maison, there are convenient lifts (including the four-seater chairlifts with the Plan Maison, Fornet and Bontadini protection dome) serving slopes, also connected to Plateau Rosà, for all tastes and levels. The Cretaz and Pancheron chairlifts create a fast and comfortable access route from village to Plan Maison; while the Pancheron chairlift offers the incomparable view at the foot of Matterhorn's South Face, provides extremely technical slopes and allows off-track enthusiasts to enjoy beautiful routes. For snowboarders, the reference point is the Indianpark, considered one of the most beautiful snow parks in the Alps, equipped with rails and kickers and served by the Fornet chairlift. The Matterhorn Glacier Ride was inaugurated on 1 July 2022, completing the experience of travelling from Breuil-Cervinia to Zermatt and back via the highest border pass in the Alps. Thus, it is now possible to travel without skis between the two renowned ski resorts, which are already ski-connected.

## CHAMPORCHER

Lifts open on 6/7/8 December 2025 + weekend of 13/14 December 2025 Daily from Saturday 20 December to Sunday 22 March 2026 + weekend of 28/29 March 2026 and from Friday 03 to Monday 06 April 2026.

**Champorcher** (1440 m) is the Aosta Valley ski resort closest to Turin and Milan. It shares a border with the Mont Avic Regional Park and is only 21 km from the Pont-Saint-Martin motorway exit and railway station (substitute bus service).

The ski area offers around 12 km of slopes with excellent snow conditions and is suitable for all types of skiers: beginners can find two school slopes served by two treadmills (Laris and Snow Park), while racers can take the Bosco slope, where important foreign national teams (French, Swedish and Spanish) train, offers exciting descents. The Cimetta Rossa Express four-seater chairlift takes only five minutes to reach the start of slope no. 13 at 2,500 m, from which there is an unforgettable panorama with views of Matterhorn, Monte Rosa and the Rosa dei Banchi glacier. Champorcher is also an ideal destination for ski mountaineering trips with reserved routes in contact with nature.

**12 km of slopes: 18 slopes** 2 blue - 13 red - 3 black

**Ski lifts:** 1 gondola lift + 2 chairlifts + 2 ski lifts + 2 treadmills

# COURMAYEUR

Open from 29 November 2025 to 06 April 2026

Departure stations at **Courmayeur cable car, Dolonne gondola lift and Val Veny cable car**. Courmayeur Mont Blanc Funivie offers 18 ski lifts connecting the Chécrouit and Val Veny slopes: snow is guaranteed thanks to planned snowmaking systems, which use 367 cannons to cover more than 80% of the ski area. At an altitude of 2,755 metres, two slopes of the highest panoramic value start from the Arp: skiing is not just a sport, it is about sensations, emotions and contemplation, and this is what Courmayeur guests will find on the Arp slope, which overlooks the marvellous southern slope of Mont Blanc. Non-skiers can enjoy the view of the marvellous peaks from the pedestrian lifts: the Maison Vieille chairlift, the Chécrouit gondola lift and the Youla and Arp cable cars. Finally, **from December to April, the Courmayeur cable car**, which departs from the centre of town, **remains open every evening until midnight**, allowing après-ski enthusiasts to stay at altitude to appreciate an aperitif or dinner while enjoying the sunset over the snow and the lights of the villages seen from above.

### **Skyway Monte Bianco** **from 7.12.2025 to 19.04.2026**

Skyway Monte Bianco connects and provides easy access to the three stations of Courmayeur The Valley (1,300 m), Pavillon The Mountain (2,200 m) and Punta Helbronner The Sky (3,466 m), blending harmoniously and sustainably into the natural environment of Italy's highest mountain: the Mont Blanc. From Punta Helbronner, there are several routes and descents along off-piste itineraries such as the iconic Vallée Blanche, among crevasses and millennial glaciers, leading to Chamonix. These glacier experiences require the presence of an alpine mountain guide or mountaineering expertises and equipment.

The panoramic terraces offer views of the entire Alps and all the 4,000-metre peaks of the Aosta Valley: the Matterhorn, Monte Rosa, Gran Paradiso and Gran Combin.

## LA THUILE - Espace San Bernardo

Open from 29 November 2025 to 12 April 2026

International connection open (weather permitting) from 13 December 2025 to 12 April 2026

**La Thuile** (1,441 m) is a small village in a large basin dominated by the Rutor glacier, on the Little St. Bernard Pass international road (open from June to the first snowfall). Its ski area, called **Espace San Bernardo**, is one of the largest in Aosta Valley thanks to its **international connection** "ski on foot" with the French resort of La Rosière, and offers 152 km of slopes served by 38 lifts. It is therefore possible to ski on both sides of the Alps, up to 2,800 m, the highest altitude in the area, with the Mont Valaisan chairlifts on the French side, with a single ski pass. The heart of the ski resort can be reached from the centre of town by gondola lift and/or Bosco Express chairlift.

The slopes of this ski area offer an extraordinary variety: from the slopes and spaces for children to the fabulous sensations of the landscaped slopes for relaxing skiing to the legendary **Franco Berthod slope 3**, whose maximum gradient is 76%; the track, dedicated only to the most expert, allows you to reach La Thuile after almost four kilometres of challenging descent; in the recent past, the scenic and challenging slope has been the site of several World Cup races.

La Thuile is not only skiing, snowboarding and freeriding, but also **snowkiting**, a discipline practised in an area easily reached by ski lifts at the Little St Bernard Pass area. For **ski mountaineering** enthusiasts, a route connecting the Italian side of La Thuile to the French side of La Rosière has been prepared for the 2022/23 winter season. Specifically, the new route runs from Les Suches to Colle del Belvedere: it is entirely a groomed trail and can be travelled in complete safety. If you have a cross-border ski pass, the route is simple: take the 'Carabinieri' slope down to the start of the Chardonnay chairlift, which leads to Fort de la Traversette, and then descend to La Rosière. Starting, instead, from La Rosière, you can choose between three routes that all converge at the Fort de la Traversette. From here, you can descend to the Bellecombe ski lift, which, together with Bellecombe 2, will take you to the Belvedere pass, from where you can descend to La Thuile. Both routes can be used as a return route if you started from the opposite side.

## MONTEROSA SKI (Champoluc - Gressoney-La-Trinité - Alagna)

Open from 29 November 2025 to 19 April 2026

**Monterosa Ski** unites three Alpine valleys into a single ski area, at the foot of the Monte Rosa massif, between Aosta Valley and Piedmont.

This has always been a destination for the most demanding skiers, both for the care taken in preparing the slopes and for the excellent technological level of the ski lifts. **Over 100 km** of slopes and **8 alpine resorts** (Antagnod, Alagna, Alpe di Mera, Brusson Estoul Palasinaz, Champoluc-Frache, Champorcher, Gressoney-La-Trinité, Gressoney-Saint-Jean), accessible with a single ticket, connect the valleys supported by more than 765 cannons (including those on the Valsesia side of the ski area) for artificial snow, a system that guarantees the possibility of skiing on slopes even in periods of low snowfall.

You can choose to spend a day traversing the entire area on skis, starting from Champoluc and Frache in the Ayas Valley, passing through Gressoney-La-Trinité and arriving in Alagna in Valsesia; but you can also decide to experience a more intimate and cosy dimension of the area: Antagnod, Brusson and Gressoney-Saint-Jean are local resorts that can be reached by convenient shuttle services or regular buses.

- **3 valleys** linked together on skis: Ayas Valley, Gressoney Valley and Valsesia
- **1 area ski pass** valid in Champoluc, Antagnod, Brusson, Gressoney-La-Trinité, Gressoney-Saint-Jean and Alagna
- **5 area ski passes** for those who like to ski on smaller areas
- **2 Alpine crossings for skiers to pass:** Colle Bettaforca (2727 m) and Passo dei Salati (2980 m)

Free shuttle service: <https://monterosaski.eu/ski-bus-19400>

## DYNAMIC SKI PASS

What does dynamic fare mean? The starting point is always the price of the daily ski pass, with rates ranging from a minimum of € 38.00 to a maximum of € 69.00, depending on the advance purchase and the day selected for skiing.

What benefits does this bring? Favourable fares for purchases made in advance. This new approach incentivises online shopping to ensure the best available fare. The greater the advance you buy, the greater the savings. The online price will, at all times, be more convenient than the fare charged at the ticket office. The online purchase of the ski pass will also always cost € 5.00 less than the price paid at the ticket office.

On the other hand, in **resorts stations (Alpe di Mera, Antagnod, Brusson, Champorcher, Gressoney Saint Jean and Wold)** daily and multi-day fares are at a **fixed price**, with the price list already available on this page: [Satellite ski area fares | MONTEROSA SKI](#)

The **online shop** is available at: [Satellite ski area fares | MONTEROSA SKI](#) - <https://monterosaski.eu/acquista-skipass-20703>

### Important

The rigid medium on which each Transport Ticket is loaded is **SOLD at the price of € 2.00; it does not need to be pierced, fits in your pocket (thus allowing you to ski hands-free) and should always be carried with you.**

Inside the medium there is a chip that stores the ticket data and its use. The magnetic medium is valid for several years and can be used in any ski resort in Aosta Valley. The same applies if you have a keycard from another Aosta Valley resort; in this case, bring it to any Monterosa Ski cash desk to get it recharged, thus saving the € 2.00 purchase price of the magnetic medium. If case of malfunctions or breaks, the keycard must be repurchased at a cost of € 2.00.

If you already own a ski pass card from past seasons, please remember to bring it with you to the ticket office to collect your new pass.

In addition, for those who have a ski pass from previous years and want to proceed with the online purchase, the option to select is "I will bring my card".

If you do not have one, you will have to purchase the keycard at the cash desk or online when purchasing the ski pass, at a cost of € 2.00

### SUPPORT ALWAYS AVAILABLE

The Monterosa Ski staff is available for support at every stage of the purchase. To be guided through the process, please contact the InfoPoint on 0125/303111.

### BETTAFORCA FUN SLOPE

For anyone who wants to have fun on the slopes during winter, Monterosa Ski has a destination that is not to be missed: the Fun Slope at Colle Bettaforca, a dynamic adventure on the snow that will magically bring a smile to everyone's face, which is sure to remain even after the holiday is over!

The slope can be reached by the Sant'Anna-Colle Betta or Bettaforca chairlifts and is located in the basin of the same name on Gressoney side. The park offers intrepid skiers many challenging obstacles with different difficulty and fun surprises in the snow: big waves, parabolic curves, tunnels, bumps, dips and snails.

The area was designed as an ideal deviation from the normal downhill runs on the slopes, varied and never mundane fun for young and old alike!

1 Tunnel with entryway, 6 Up & Down, 7 Parabolics, 1 Snail with tunnel, 1 Depression with Up & Down

## SAINT-RHÉMY-EN-BOSSES - CRÉVACOL

Lifts opening: 06-08/12 – 13-14/12 - from 20/12/25 to 05/04/26

The Crévacol district lies on the territory of Saint-Rhémy, the last village in the Great St. Bernard Valley (1,519 m). Its favourable location, totally south-facing and therefore very sunny, makes it the ideal place not only for those who love skiing, but also for those who prefer to relax and sunbathe. The ski area stretches from an altitude of 1,640 to 2,450 metres, with an altitude difference of 810 metres, and offers 22 km of slopes. Crévacol can cater for all the needs of skiers, from beginners to experts, who can enjoy skiing away from large crowds. It also offers ample space for snowboarders. A three-seater chairlift takes skiers to the top of the ski area at an altitude of 2,450 metres. A second chairlift and a treadmill for beginners serve the lower part from 1,640 to 2,000 metres.

**22 km of slopes:** 4 blue - 6 red - 1 black

## VALGRISENCHÉ

**Ski area opening: 20 December 2025 - 29 March 2026**

**Fun Park opening: 6 December 2025 - 29 March 2026**

Valgrisenche Ski is the lift at the foot of Gran Paradiso, a winter destination for many fans of the most authentic and less chaotic mountains, in search of true mountain sport and unspoiled nature. Nestled between Rutor group, Grande Sassière and Grande Rousse, Valgrisenche is known as the snowiest of the side valleys in Aosta Valley. The low temperatures in the winter and spring months mean that the snow here remains powdery for a long time. Far off the beaten track, this ski resort enjoys a privileged location amid spectacular glaciers and lush forests.

The Valgrisenche Ski area touches 2,000 metres thanks to the strategic chairlift that starts near the village centre, dividing into one blue, one red and two black slopes.

The Valgrisenche Ski offer is perfectly suited to families and those approaching downhill skiing for the first time. Beginners and babies can try their first descents, thanks to two treadmills suitable for learning. Families can also enjoy the snow park at the cable car departure point. In addition, slopes and glaciers in Valgrisenche become ideal places for adventure and sports experiences, including snowshoeing, ski touring and heliskiing, which can be booked with mountain guides.

## VALTOURNENCHE

Open from 29 November 2025 to 26 April 2026

Overlooking the Matterhorn, at the foot of the majestic Grandes Murailles chain, **Valtournenche** (1,524 m) is connected via the Cime Bianche pass to the Breuil-Cervinia and Zermatt ski areas. The domaine skiable offers **54 km of slopes**, from the 3,200 m of Col Superiore di Cime Bianche, on the edge of the Ventina glacier, to the 1,600 m of the lift departure point, with tracks suitable for beginners as well as for the most hardened racers, such as the Reine Blanche, one of the longest slopes, which, if taken at Piccolo Cervino, allows 2,300 m of altitude difference and 20 km of descent.

Ascent is possible by a 12-seater gondola lift (2400 p/h) that departs from three large and convenient car parks. **34 km** of slopes with high-pressure planned snowmaking make it possible to use all the ski lifts in the area.

At the arrival of the gondola lift, in Salette area, there is a heated picnic area with toilets, ideal for those families who do not want to give up the freedom of a home-cooked meal. For those who do not wish to make use of the picnic area, two restaurants in the immediate vicinity of the arrival station, and two others about half an hour's walk away, will tickle your taste buds. All rooms have large solariums and spaces for your children. Another refreshment point can also be found along the return slope in the lower part of the Reine Blanche.

### Valtournenche ski area:

**54 km of slopes:** (of which **34 km** with planned snowmaking) 10 blue (16.6 km) - 12 red (35 km) - 2 black (2.4 km)

Ski lifts: 1 gondola lift + 5 chairlifts + 3 treadmills

For info on **fares applied in Cervinia and Zermatt** see Breuil-Cervinia.

Tickets can be purchased at the ticket offices of both ski resorts.
